

BFI Group Business Overview

Bridging Taiwan & Malaysia manufacturing, Japan QC experience and Southeast Asia growth

An integrated business ecosystem across manufacturing, market entry, commercial projects and lifestyle brands.

Our strength lies in connecting operational depth with market-facing growth - turning products, capabilities and relationships into more scalable business opportunities across Asia.

Jacqueline Hsiao

CRAFTED FOR DESIGN

Our Evolution & Global Footprint

A group built on long-term capabilities across manufacturing, export, market entry, commercial solutions and lifestyle brand development.

Taiwan

The Supply Chain Bedrock. Over three decades of manufacturing excellence. We deliver robust custom project production, store fixtures, and globally trusted export capabilities across worldwide markets..

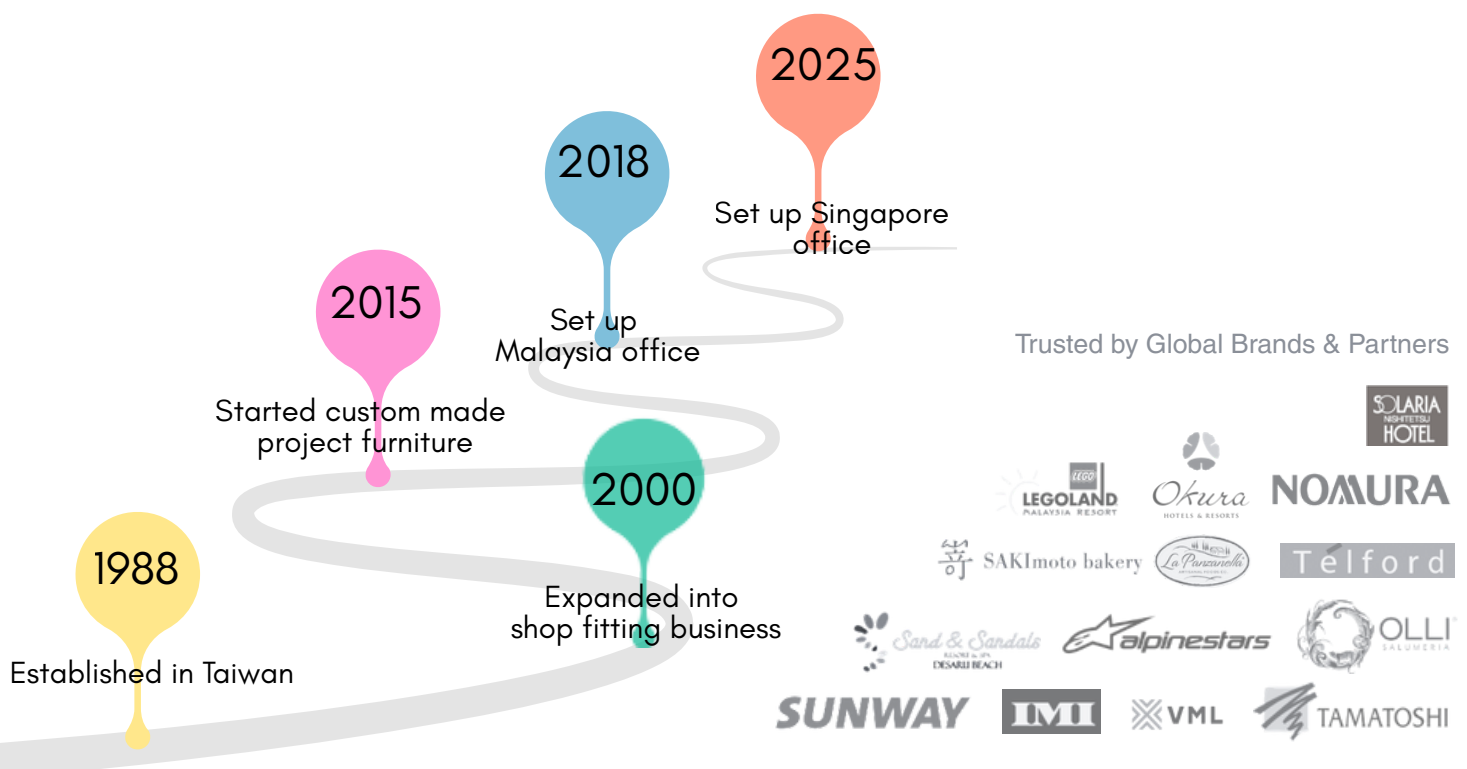

Japan

The Quality Benchmark. Forged by highly demanding standards. Decades of deep market penetration, rigorous quality control, and trusted distribution networks.

Southeast Asia

The Growth Engine. Our commercial execution front. Transforming manufacturing strength into end-to-end commercial furniture solutions and seamless cross-border project management.

Our business foundation started from Taiwan and developed through years of overseas client service - especially in Japan - before expanding into Southeast Asia through commercial furniture, project solutions and regional business development.

Today, our value is not defined by product range alone. It comes from our ability to connect manufacturing, market understanding and commercial execution into one practical business system.

Our Business Ecosystem & 4 Core Engines

Different business units, one shared advantage: operational depth combined with market-facing growth.

Big Fame Industrial Corp

Manufacturing & Export Foundation

Store fixtures, display systems, racks, POP stands and customised project manufacturing for overseas clients, especially Japanese design companies. We also provide customized hotel furniture solutions.

Vitalsun International Co., Ltd

Japan market entry & medical business support

Cross-border coordination, industry understanding and trusted relationships developed through long-term Japan-related medical business, ensuring the highest standard of quality control and compliance.

Sunnyward Sdn Bhd / Pte Ltd

SEA Commercial & Project Solutions

Commercial furniture, indoor and outdoor solutions and practical project execution across hospitality, F&B, office and living environments.

Lifestyle & Brand Business

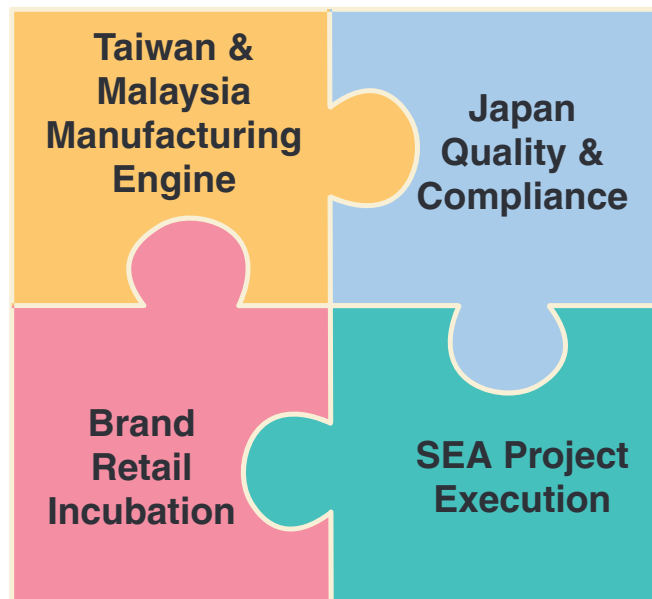

Brand Incubation & Retail Distribution

Translating high-quality products into successful lifestyle brands. We manage retail channels, distribution, and brand positioning across Asia.

Value Creation Through Integration

Our value is not limited to supplying products. We create value by connecting the right capabilities with the right market opportunities.

- **Cross-Border Supply Chain Synergy**

Aligning top-tier manufacturing, quality control, and strict timelines across borders to ensure risk-free project delivery.

- **Seamless Commercial Execution**

Delivering complete, end-to-end furniture and spatial solutions for hospitality, F&B, and mixed-use environments.

- **Strategic Market Entry & Compliance**

Navigating complex regulatory landscapes and connecting overseas brands with trusted distribution networks across Asia.

- **Brand Incubation & Retail Growth**

Translating high-quality products into scalable lifestyle brands through strategic positioning and omnichannel distribution.

Led by an Integrated Growth Vision

As the next-generation leader of the group, my vision is to bridge operational depth with market-facing growth. We are no longer just connecting products to markets; we are connecting manufacturing strength, rigorous compliance, and commercial execution into a unified, future-ready business platform.

Jacq

Let's Build the Next Success in Asia Together.

If your organization is exploring strategic partnerships, cross-border sourcing, or integrated commercial project solutions across Asia, I would love to connect.
